New Rules For Springer Class At Porterville Fair — Gilbert Appoints Advisory Group

PORTERVILLE, August 25 — Youngsters planning to exhibit stock in the Springer Heifer class at the 1961 Porterville Junior Livestock Show are advised by Chet Gilbert, head of the Dairy Department to check the Fair's new regulations governing their entry and sale.

The supplementary rules were drawn up last week by a committee of local dairymen appointed by Gilbert to act as an advisory group to assure that animals offered for sale in this division in the annual Saturday afternoon auction meet the qualifications of a top producing milk cow.

Notification of the rule changes are being mailed to 4-H leaders and FFA instructors with the request that they place the information in the hands of the Junior exhibitors as soon as possible so they will not purchase the animals now which will later be unable to meet Fair requirements. These requirements, stated Gilbert, will be rigidly

enforced and animals failing to meet them will automatically be ineligible to show. A sifting committee comprising the members of the advisory group will check the animals' eligibility two weeks prior to show date.

The changes require that all Heifers be the produce of a dam with a minimum DHIA record of 450 pounds of butterfat and the get of a registered sire. They must be bred to a bull of known registry and of their same breed whether hand mated or artificially inseminated. The seller must further guarantee to the purchaser that the Heifer is with calf and open in all four quarters. Animals with horns are ineligible for entry.

In addition to the supplementary rule changes, the Heifers

SIGN ALONG 65 freeway west of Porterville, at left, indicates the field where official figures on ability to gain are being compiled on a group of bulls that will be sold in Fresno, November 19. Upper photo shows a group of junior yearlings that are included in the program. (Farm Tribune photos)

\$192 Goes To Betty Adelsbach As Bonus Winner

PORTERVILLE, August 25 — Mrs. Hubert Adelsbach picked up a check for \$192 yesterday morning just because she made a purchase at Clare-Retta's on Tuesday — a purchase that won her pot No. 1 in the weekly Tuesday bonus that is sponsored by 23 Porterville business firms.

"I signed up right in the beginning," Mrs. Adelsbach said, "and every Tuesday I have made a purchase in a Tuesday Bonus store. My husband, Hube, said I was wasting my time — but now, well I almost fainted when I got the word."

So another shopper has received the big payoff by doing nothing more than patronizing Tuesday Bonus stores on Tuesday.

Next Tuesday, Bonus Pot No. 1 is \$18.00; Bonus Pot No. 2 is \$109.00.

must conform to existing health regulations.

Members of the newly formed advisory group are: Ray Kennedy, Sigrid Knutsen, Gerald Vossler, Guido Lombardi, Ike Barney, Frank Berbera, and Bill Straud.

COLLEGE FOOTBALL SQUAD REPORTS SEPTEMBER 1 TO NEW HEAD COACH ED. McDERMOTT FOR 9-GAME SEASON

PORTERVILLE, Aug. 25 — Porterville College football players will draw their equipment, take physical examinations, and engage in their first practice session on Thursday, September 1, Coach Ed. McDermott announced.

The official conference starting-practice date of September 1 will leave only three weeks to prepare for the non-conference opener against Hartnell college at Salinas, McDermott pointed out.

The Pirates, one of the seven teams in the strong Central California conference, will play four home games and five away this season. The only change in opposition over last season is that Oceanside - Carlsbad college will take the place of American River Junior college.

McDermott said the prospective Pirate varsity players would report to the college field house at

10 a.m., September 1, to draw equipment, hear an orientation talk, and have team and individual pictures taken. Physical examinations will be given at 1:30 p.m., and a full scale practice session will begin at 3 p.m.

The Pirate gridders will work out twice a day on Friday, Saturday, and Monday. Regular 3 p.m. practice sessions will begin at the start of school on September 6.

An intra-squad scrimmage, at which players will be introduced to the fans, is tentatively scheduled for September 10, McDermott said.

Porterville opponents for the year are: September 17, at Hartnell; September 24, Oceanside-Carlsbad; October 1, at Coalinga; October 8, Reedley; October 15, Hancock; October 22, at Taft; October 29, COS; November 5, at Fresno; November 12, at Yuba City college.

SCALE IS MIGHTIER THAN THE EYE IN DETERMINING GAIN ABILITY OF CATTLE

By Bill Reece
Special Events Editor

PORTERVILLE, Aug. 25 — Popularity can be a dangerous thing. Especially for the inexperienced cattle raiser who uses it as the only yardstick for purchasing replacement stock. For, too often he finds to his sorrow that the bull with the long pedigree and hatful of blue ribbons is woefully short on weight gaining ability.

And, weight to a cattleman is like interest to a banker. It's the prime object of his business — to harvest the maximum possible poundage of beef off his cows each year and to sell it at the best possible price. And this applies to all producers whether they be range cattlemen with commercial herds, mid-west farmers with grain to feed, or country gentlemen with blooded stock.

So today, the modern, profit-minded cattleman, is demanding something weightier than mere pedigree and, something more tangible than a championship trophy.

And, they're getting it in performance testing. They're finding out that the scale is mightier than the eye when it comes to ferreting out bloodlines with inherent ability to put on pounds of flesh — the real reason for the tests.

Up to now, most of the testing has been conducted by government experiment stations and agricultural colleges on animals supplied by breeder groups. Among the first to make use of the facilities

Squaw Valley Future Before Williams' Group

PORTERVILLE, Aug. 25 — The future of Squaw Valley, site of the 1960 Winter Olympics, will be the subject of a hearing, September 1 and 2 at the Squaw Valley Inn, before the State Senate Fact Finding Committee on Natural Resources, chairmanned by Senator J. Howard Williams, of Porterville.

All aspects of future operation, proposed expansion and eventual disposition of the facility will be covered during the hearing. Senator Williams points out that while the recreational potential of Squaw Valley State park is tremendous, the state legislature must see that the state's investment in the valley is adequately protected in any plans for the future.

On August 29 and 30, Senator Williams' committee will meet at the Veterans' hall in Fort Bragg for hearings on two bills, referred for study: S. B. 444 that would

4-H ALL-STARS WILL BE NAMED THIS EVENING

VISALIA, Aug. 25 — Three boys and three girls will be named as Tulare County 4-H All-Stars for 1960 at a meeting of a selection committee of 4-H leaders being held this evening at the Southern California Edison company auditorium in Visalia.

Under consideration are eight girls and seven boys who have the outstanding 4-H records in the county. The 1960 All-Stars will receive a trip to the California All-Star conference on the campus of the University of California at Berkeley next spring. They will also preside at the County Awards dinner to be held November 5, and

(Continued On Page 8)

HEARINGS ON TWO-COUNTY MILK MARKET

SACRAMENTO, August 25 — State Director of Agriculture William E. Warne has called two public hearings to consider consolidation of the Tulare County and Kings County milk marketing areas. The proposed consolidation would not change present minimum prices paid by consumers or the minimum prices paid by distributors to producers.

The hearing for the Tulare County Marketing area will be held on August 30 in Court Room Number 4, County Civic center, Visalia, beginning at 10 a.m. The hearing for the Kings County Marketing area will be held on August 30 in the Farm Bureau hall, Sixth and Brown streets, Hanford, beginning at 2 p.m.

Testimony and evidence will be received at these hearings to enable the department to determine whether conditions of production and distribution are reasonably uniform between the two areas under consideration for consolidation.

Currently the minimum producer price is \$5.06 per hundred-weight for fluid milk in both marketing areas. The present minimum resale prices in both the Tulare county and Kings County Marketing areas are 22½ cents per quart purchased at retail stores and 23 cents per quart delivered to homes.

FIRST COTTON BALE GINNED AT COBERLY-WEST

WOODVILLE, Aug. 25 — First bale of Tulare county cotton for the 1960-61 season was ginned last week at the Coberly-West gin, with the bale running 506 pounds.

The cotton was hand-picked on the A. R. Shannon ranch. The bale will be exhibited in the Tulare county booth at the California State fair in September.

Register!

VISALIA, Aug. 25 — Persons who are not registered to vote in the November general election have until September 15 to register, it is called to attention by Tulare County Clerk Claude Grant. In the Porterville area, registrations will be taken at the city hall, Porterville Hardware, and the Mark Sharp Insurance office on West Olive.

STANDARDS FOR LEMONS CHANGED

WASHINGTON, D.C., Aug. 25 — The United States Department of Agriculture has announced it proposes to change the U.S. Standards for lemons packed in cartons to conform to recent changes in

(Continued On Page 8)

DEERE DEALERS MEET IN DALLAS

PORTERVILLE, August 25 — Merv Brown, owner of Brown Machinery Company in Porterville, and his office manager Bob Donaldson will join with other John Deere implement dealers throughout the United States and Canada this weekend in Dallas, Texas, to attend the unveiling of what is said to be the first complete change in John Deere Tractors in the history of the one hundred and twenty-three year old farm equipment concern.

What the changes include apparently is a well kept company secret that won't be revealed to either the dealers or the public until August 29, the concluding day of the three day session. "About the only thing they have

(Continued On Page 8)

We Only Heard

BY BILL RODGERS

WE'RE RIDING along the trail above Lewis camp, headed for Lower Funston, when this Sequoia National Park Ranger meets us and says, "Are you Natzke and Rodgers?"

TO WHICH Natzke replies, "Sure, and begorry, I'm Natzke, and if it's a fight you be lookin' for, get down off that pony and I'll lather you good with me auld shelahly."

THAT'S WHAT Bob Natzke said later he should have said to the ranger, but what he really said was, "Yes sir, I'm Natzke and that's Rodgers."

TO WHICH the ranger replied that Natzke and Rodgers had shaken the wilderness area of Sequoia National park to its very foundations by having an air drop of choice provisions unloaded over Funston for their eating pleasure — steaks, green vegetables, a couple of cantaloupes, ice cubes, Seven Up, a bottle of French dressing, ice cream, a carton of Olympian's finest, a couple of cans of Coke — all of which was no less than manna from the skies to a

party with a week in the high Sierra back of it.

BUT NATZKE and Rodgers were the victims of pleasant circumstance — good friends, namely Murray Falconer and Mel Coeur, the latter of Sierra Aviation at the Porterville airport, the former top kick in the Porterville Area Pilots association, had arranged the entire thing, not knowing how they would rock and roll the wilderness area.

THEY JUST flew down Kern canyon, dumped out the chute with its cargo above Funston, and flew home. Natzke and Rodgers presented a plea of complete ignorance to the park ranger — and a true plea it was, then after learning that the ranger intended to write a few letters to a few people about a few things, including air drops in the wilderness area, rode at a hard gallop into Funston to varify those steaks and green vegetables.

OUR DAUGHTERS, Susan and Mary Kay, allowed it was only a dream, that we really weren't sitting on the bank of Kern river, with steaks on the grill and a tossed green salad in the kettle. Natzke finally accepted the fact that those were real ice cubes in his cup, surrounded by a certain product of the farm. And Larry Gill, the packer, just stood there, with a plate in his hand.

BUT BEFORE partaking of this finest of fine wilderness meals, we all bowed three times to the East, proclaimed August 17 as Murray Falconer and Mel Coeur day at Lower Funston, then ate everything in sight.

PERHAPS WE have not heard the last of this saga of the Sierra; we don't know who the ranger is going to write to. But we did swear that we would never let it happen again. No sir. We'll never let anything like steaks and salads and ice cubes rain out of the sky again to shatter the wilderness area. No sir. Never again.

BUT IF it's a fight you be lookin' for, shore and begorry . . .

AUGUST, 1910

It is rumored that Yale will drop Greek as an entrance requirement. Prospective students, however, will still be required to bat .300 and field .979, we presume.

At the Airdome tonight: "Her Sea Voyage". Specialty by Miss Lida Leslie.

At Moore's Open House: "Latest In Garters", and "Flats For Rent." Miss Nina Randall will appear in illustrated songs on Tuesday, Thursday and Saturday.

FALL REGISTRATION AT COLLEGE WILL OPEN SEPTEMBER 2

PORTERVILLE, Aug. 25—Registration for fall classes at the Porterville College will be held on Friday, September 2, and instruction will begin on Tuesday, September 6.

Director O. H. Shires said students who delay their registration may not be able to enroll in some classes, as many classes will be filled.

The college has a streamlined registration procedure, Shires said, which enables a student to complete his registration in less than 30 minutes.

All students must be pre-registered by their academic advisors. Pre-registration and academic counseling is now being carried on daily except Saturday from 9:30 a.m. to 4:30 p.m. Prospective students should call the college to make appointments with advisors, Shires said.

There never was a meal like it, anywhere.

AS FOR those comments last week by guest columnist Bill Reece concerning our taking off for the Sierra without a sleeping bag, let me herewith state for the record that when I rough it, I rough it. None of this city dude stuff like sleeping bags and air mattresses. A wet horse blanket for cover and a pile of rocks for a bed. That's the way this old cowpoke travels in the mountains.

AND MAY we further state that there is no truth to the story that I took over my daughters' bed rolls and air mattresses and let them sit up by the fire all night. This is a malicious lie. Besides, my daughters like to sit by the fire all night.

When the clouds disappear and the good old sun gets to work, you'll need a new wagon, especially at the prices we can sell you one for. Porterville Hardware Co.

The Big Buggy and Harness Shop is the Porterville Carriage company, located in the Howell block. Boettcher and Long, proprietors.

Hoge & Co. will sell you the earth with a barbed wire fence around it if you can pay for the fence. We have the land but want the buyers. See?

NEW LIBRARY, OTHER CHANGES TO GREET COLLEGE STUDENTS

PORTERVILLE, Aug. 25—New buildings and construction, including a new \$114,000 library, will be ready for use by students at Porterville College at the start of classes on September 6.

In addition to the library, changes on the campus face include the construction of a new student book store, enlarging of the food service facilities at "The Cove", installation of a temporary building from the high school campus to house the music department, and the grading and seeding of fields for outdoor physical education classes.

The library, erected by Fidler and Dorei, a Tulare construction firm, was completed two months ahead of schedule, and the moving of books and supplies has been completed.

The old library room will be converted for use by social science and other large classes, according to O. H. Shires, college director.

The library will provide for a capacity of up to 20,000 books and reference volumes. It features a large reading room, open stacks, audio-visual center, record listening and language instruction center, conference room, work rooms, and librarian's office. A glass wall forms the north side of the reading room, which also opens into an outdoor walled court and patio.

Because the library bid price was below estimates, district trustees were able to include refrigerated air conditioning in the structure, which will make it available for summer school use.

The new book store is being installed in "The Cage", originally

BEARS RATTLE THE BOARDS TO WIN STATE CHAMPIONSHIP

California's best amateur baseball team, the Porterville Bears, put on an exhibition of power baseball this past weekend that left their opponents shaking.

The fence rattling Bears blasted their way to the California Congress of Baseball Championship by smothering the previously undefeated Rosemead Bears 16-1, and twice clobbering the Fresno Army Recruiters 15-9, and 16-1. During the three game stand the Bears orbited four home runs, and assorted triples, doubles, and singles.

In the opening game of the playoffs the Bears met the much publicized and unbeaten Rosemead Bears. Big Lefty Jim Idell took all the fight out of the Bears with a smoking fast ball and a good breaking curve ball. When all the futile swings were tallied up the young Terra Bella school teacher had struck out 16 visitors, and was very inhospitable indeed in yielding only five hits all night. Mountie Bedford blasted a two run homer in the first inning to start the Porterville-type Bears to victory.

The second game of the playoffs provided considerably more competition as the Bears out-scored the Fresno Army Recruiters 15-9 Sunday night. This game provided a total of 30 hits between the two teams, an umpire-punching dispute, and another Bear win.

Larry La Bountie, a former Visalia pro, started on the mound for the Bears, but was relieved by Mountie Bedford in the fourth, after having given up seven runs on 10 hits. Mountie slapped the handcuffs on the Fresno nine as the Bears iced the game with five runs in the final two innings. Centerfielder Bill Findley bombed the fences for two home runs to lead the Bears at the launching pad.

The Bears again met the Fresno nine Monday night as the Recruiters had beaten Rosemead in the second game Sunday night to earn a place in the finals against the Bears.

Curve-balling Charlie Grenich, a former Tulare high school ace, did the pitching honors for the Bears in the third and final game. The lanky right-hander proved very able as he set the Fresno nine down 16-1, and accumulated 12 strikeouts in doing it. Grenich helped his own cause with an off-the-wall triple in the sixth inning while Bear catcher Bob Tombs celebrated the arrival of an infant boy Sunday night with a fifth inning round-tripper for the game's only home run blast.

Judging from the crowds at the games there were quite a few people who didn't see the Bears in action during the playoffs. We think that this Bear team represents probably as strong a group of simon-pure amateurs as could be gathered together anywhere. During their three games they blasted eight opposing pitchers off the hill. Defensively, the Bears were easily the best club in the playoffs.

The Bears return to action Friday night, September 2, at 6:30 when they meet the Weshington State champions in a four team playoff for the Western States championship.

Golden Goodness Of Raisin Pie Can Win A Prize

TULARE, Aug. 25—It will soon be raisin pie contest time at Tulare County Fair, September 20 through the 26th.

As in the past the contest is sponsored jointly by Sunmaid Raisin Growers of California and the Tulare County Chamber of Commerce, with a gold cup and ribbon going to first prize winners in each of the three divisions. Second and third place winners in each division will receive appropriate ribbon awards. All entries must be accompanied by recipes.

First place winners in each division will compete for the perpetual Sweepstakes Gold Trophy which is held by the winner until the next year's fair.

Last year's sweepstakes winner was Pat Carvalho of Tulare.

As in previous years there are three sections in the class: All raisin, one crust with cream or custard and any other type of raisin pie.

Mrs. Ruby Witte, directress of this department, points out that entries will be received Friday, September 23, from 9 a.m. to 12 noon.

CHAPEL CHIMES

By Rev. N. J. Thompson

Are you working too hard? Are you tired, exhausted, anxious?

Perhaps you are headed for ulcers, or a nervous breakdown. But chances are you're not working nearly as hard as you think!

The average American now has some 3,500 free hours a year. How do we utilize all this leisure? Playing, mostly. Last year, our playing cost \$40 billion, for boats, golf balls, vacation trips, etc.

When Lyman Beecher was on his deathbed, someone asked, "Dr. Beecher, what is the greatest work a man can do in this world?"

The preacher replied, "The greatest work is not ruling a kingdom. It's not political or ecclesiastical power. Neither is it scientific, philosophical, nor even theological

knowledge. The greatest work a man can do is lead a soul to Jesus Christ."

When you stop that tractor, or outboard motor, and think about it, Dr. Beecher is right. It's something for our politicians, educators, and scientists to think about. If a million, or a thousand, or even a hundred dedicated men made up their minds to lead one soul to Christ each day — The result staggers the imagination!

I'd love to see a politician, educator, and scientist collaborate in writing a book on, HOW WE SPEND OUR WEEKENDS PRAYING. I'd sure vote for that politician.

When we stop idolizing blues singers, movie heroes, and TV cowboys, and spend our leisure time instead in family worship, or praying for our country, that will be progress in the right direction.

If we worked half as hard trying to be better as we work trying to get a boat, or swimming-pool, or limousine, we would create a beautiful Utopia.

What America needs is not better vacations. What America needs is better Americans.

News Of The SPRINGVILLE COMMUNITY

By WINNIE GAGE

Mr. and Mrs. Al Parks of Augusta, Georgia, have been visiting their daughter and son-in-law, Mr. and Mrs. Ted Baker and family, Lynn Baker went home with them to start school.

Mr. and Mrs. Gilbert Mullen and sons have returned home from a month's sightseeing trip into eight different states.

Mr. and Mrs. Jerry O'Connor and baby son are visiting her grandmother, Mrs. Amy Snyder in Anaheim. They were accompanied by Mr. and Mrs. Jack Davis and son who visited his mother, Mrs. Mary Reiff in Torrence.

The Springville Hobby club held their August meeting last Friday evening in Murry park in Porterville with a picnic supper.

During the business meeting the group decided on the name of "Wayside Hobby Center" for their hobby exhibit and sale to start Saturday at 2 p.m. until dark on Sunday, August 27 and 28th on the lawn at the home of Mrs. Winnie Gage, on highway 190 near Springville.

The purpose of the exhibit and sale is: 1. To determine if interest really exists in making and marketing crafts. 2. to determine the kinds of arts and crafts readily available. 3. To discover the kinds and quality of items that would sell. 4. To work toward the promotion of quality products. 5. To create stronger interest in arts and crafts.

TAX DEADLINE IS AUGUST 31; PENALTY 8%

VISALIA, Aug. 25 — Taxes on the Unsecured Roll, if unpaid, will be delinquent August 31st at 5:00 p.m. and, thereafter, a delinquent penalty of 8% attaches to them.

Unsecured taxes are taxes that are not a lien on real property, not coupled with the ownership of real estate, and are collected by the County Assessor.

In order to reduce the expense of collecting the unsecured tax, there will not be a second notice mailed to the taxpayer this year. Although the original bill included this information, many accounts remain unpaid as the deadline approaches.

The unsecured taxes that are unpaid after the penalty attaches are processed for legal enforcement of collection.

It will continue as long as interest is shown.

The group signed get well cards for two of their members, Mrs. India Cross, who is ill in the Springville hospital, and a new member, Mrs. Lula Thronebery, who is ill in the home of her daughter, Mrs. Geo. Dodd in Pixley. Both are feeling better.

Guests were Mrs. Margaret Alexander of Atascadero; Mrs. Zelma Townes and granddaughters, Teresa, Debbie and Crissie Davis, of Porterville, and Mrs. Rose Van Ness of Springville.

Miss Lucille Higgins has returned home from a three months trip to her former home in Ann Arbor, Mich.

Mr. and Mrs. George Haigh and Mrs. Ruth Matranga were weekend visitors in Tehachapi with his brother and family and old friends.

ANONYMOUS FAMILY DECLINING; READ 'SHOTGUNS ON SUNDAY'

THROUGH THE AGES the "Anonymous" family has been very active indeed contributing bits of art, literature and wit to the world's cultural output. One of the earlier members of the clan sat down on a hot afternoon in the Nile valley, for instance, and chipped out the Rosetta Stone, that has enabled us to translate Egyptian hieroglyphics. Doubtless, after this stint, he had writer's cramp and was too tired to sign his name. On through time though, others of the "Anonymous" gang have added such bits of wisdom to the world's knowledge as "A rolling stone gathers no birds" or, "It is always darkest after the fuse blows", and other words to live by.

IN THE MUSICAL FIELD, too, someone named "Anonymous" wrote the "Londonderry Air"; so called when played by an orchestra, otherwise known as "Danny Boy" for those having trouble reading music. There have even been "Anonymous" contributors to the world of poetry, although a quick scan of some of these works, indicates that they should not be printed, or at least not sent through the mail.

STILL, THERE HAVE been many gems of culture produced by the Anonymous Clan through the centuries. Unfortunately, in more recent times the family has degenerated, and instead of contributing to the uplift of society as a whole, its members have been busy writing letters. Anonymous letters have two things in common. They are not signed and their tone is generally vituperative. This is a two-bit word from Mr. Webster's book meaning "insulting". Any unsigned letter is totally disregarded by this department, so "Anonymous", save your time and paper.

WITH THE CESSATION of hostilities on the baseball front, Babe Ruth and Girls' Softball, we have found considerable time on our hands in recent evenings. To fill in the gap, we wandered into Mrs. Margo's emporium the other evening. The establishment also goes by the less euphonious name of "City Library". While sampling the wares, we ran onto a book called "Shotguns on Sunday" by Joe Doctor.

THOSE WHO TAKE AN interest in the early days of our town will be fascinated with this work. It deals with one Jim McKinney who was Porterville's bid to outlaw fame. Unfortunately, Mr. McKinney came along at a time when the community was painfully trying to uplift itself morally and esthetically, and it was thought very poor taste to go around and about and shoot up lights, saloons and humans. In addition, McKin-

ney never had so good a press as the Dalton boys or the James boys, so he has never been lionized in retrospect; which proves that timing is as important in the outlaw business as anywhere else.

FOR LIVELY READING get this one. You will meet a whole host of names you know: Loyd, Willis, Hardeman, Lumley, Barber, etc. It also gives a fascinating inside into life at Scotty's Chop House and the Mountain Lion Saloon, where there was more roaring than lions.

WHAT DOCTORS SAY ABOUT

Telling The Cancer Patient

- Thick Blood

Q. Should the cancer patient be told?

A. This is a difficult question and certainly one that can not be answered with a flat yes or no. What to do would seem to depend entirely on the circumstances. Perhaps a certain amount of beating around the bush is desirable or essential, depending upon the individual, but it would very often seem unwise to resort to outright untruths. Many sufferers, though untold of their condition, must be able to make shrewd guesses by the very nature of their treatment. They really need no telling — they already know.

Q. I have often heard older men and women say that they have "thick blood." Is it actually possible for the blood to become too thick?

A. True thickening of the blood, called "polyglobulism," can occur but the condition is rather rare. The lack of pep and general feeling of tiredness that old-timers attribute to "thick blood" probably is nothing more than spring fever.

Questions asked of Science Editors, P.O. Box 396, Madison Sq. Sta., N. Y. 10, N. Y. will be answered in these columns when possible.

Dormitory For Men College Students

PORTERVILLE, Aug. 25 — A newly acquired residence dormitory at 533 East Poplar Road, adjacent to the Porterville College Campus, will provide housing for between 25 and 30 men students from other areas, Director O. H. Shires announced.

However, housing is needed for five or more women students, Shires said, and persons who have rooms available may contact either him or Paul Kercher, the dean of students, after August 22.

The new men's dormitory is a residence acquired by the State of California in securing the right-of-way for the Highway 190 overpass to be constructed sometime in the future.

Ed McDermott, physical education instructor and football coach, will be the resident faculty supervisor.

COLLEGE STUDENTS NEED EMPLOYMENT TO MEET EXPENSE

PORTERVILLE, Aug. 25 — Fall semester students at Porterville College, both men and women, need part-time employment to help meet their college expenses.

Firms and individuals in the community who can offer work before and after school or on weekends may contact Paul Kercher, the dean of students at the college, SUNset 4-7000.

The students have a wide range of ability, Kercher said, and can handle agricultural, domestic, mechanical, clerical, sales and other types of work.

Ray Arnett To Participate In Policy Meeting

BAKERSFIELD, Aug. 25—Ray Arnett, 14th District Congressional candidate, said today he has accepted an invitation from Vice President Richard Nixon to participate in the Republican National Policy Conference.

Arnett said he will attend the initial meeting of the conference organization Monday, Aug. 29, in Washington, D.C.

"I am honored to have been asked to participate in this vital national conference," Arnett said.

"The discussions on foreign relations, space science and technology, national security, and the economy, are of great importance to our country's future.

"It is my earnest hope that I will be able to make a substantial contribution in the field of agriculture and labor and social legislation. These topics are of immediate and vital concern to my district of Kern, Kings, and Tulare Counties.

"It is evident that past and present legislation has failed to return to the taxpayer benefits in proportion to the dollars he has been required to pay for governmental inefficiency."

Arnett is recognized as one of the leading spokesmen against bureaucratic government and wasteful federal spending "that burdens everyone — the wage earner and fixed income pensioner — with in-

flation, the most cruel form of taxation."

The invitation to Arnett to attend the Washington conference came from Nixon, presidential nominee; Sen. Thruston Morton, chairman, Republican National Committee, and Rep. William E. Miller, conference chairman.

ONLY THREE NEW TEACHERS AT PC IN FALL SEMESTER

PORTERVILLE, Aug. 25—Only three new faces will be found among the Porterville College faculty at the start of the fall semester on September 6.

Paul Kercher, formerly superintendent and principal of the Laton Joint Union High School and College district, will fill the vacancy in the post of dean of students caused by the resignation of Val E. Weithoff. He also will instruct history classes.

Carl Elder, director of athletics and football coach at Porterville

High School for many years, will succeed Harry Kane as director of athletics at the college. He also will serve as assistant football coach, baseball coach, and teach health education classes.

Ed McDermott, formerly a high school football coach in Louisiana, is the new head football coach, and will teach physical education classes. He replaces William Jacobs.

Marie Ellis, formerly chairman of the women's physical education department at Porterville High School, will assume a full-time position at the college this year. She divided her time between the two schools last year.

Returning faculty members and their teaching assignments are: Esther R. Bradley, dean of women, criminology and sociology; Edward Buckles, business; Marie Button, art and home economics; Lee Clearman, social science and publications; John Cleary, dean of instruction and social science; Burl Cuffman, life science; William Davies, industrial arts and engineering; Marie Ellis, women's physical education; Fred Fink, music; LeRoy King, English, speech and drama; Nancy Korn, business; Dr. William Kusserow, physical science and mathematics; John Ligaitis, physical science and mathematics; Augusta Linneman, business; James Maples, carpentry; Emily McCain, English; Robert Redding, English; Emmy Lou Ritz, librarian, German; John Stover, mathematics and surveying; Arthur Van Horn, dean of student activities and social science; Donald Zuckswert, life science.

YOUR LEGISLATOR AT WORK!

Senator
J. Howard Williams
32nd District
California State Legislature

Recreational aspects of the state-wide water plan continue to provoke great discussion among sportsmen and all kinds of recreation lovers. Fishermen, boatmen, hunters, those just interested in relaxation from workaday cares, all are acutely aware of their stake in actual construction of the various projects in the plan. They, and their many organizations, can be forthrightly vocal on behalf of their particular viewpoints.

This was demonstrated very well at a recent hearing of the Assembly fish and game committee. Called primarily to consider a proposal to make an annual appropriation of tideland oil royalties to protect and expand fishing, wild-life and other recreational facilities in all water plan projects, the meeting developed into a wide-scale critical review of the relationship between the plan and all kinds of recreation.

The suggested bill would authorize appropriation of \$3 million annually of state oil and gas revenues to the California water commission to be used exclusively for the improvement of fishing, wild-life and other recreation in connection with plan projects. The money would be used so that the costs of such improvements would not be borne by agricultural or domestic water users who do not use recreational facilities. Spokesmen for all the sports, water user, labor and other groups gave vigorous support to the measure.

The discussion centered about the problems connected with use of the Sacramento-San Joaquin Delta, the "heart of the state water plan", about which I have written before. Representatives of the department of water resources at the hearing were pressed by committee members for details of water plan proposals for recreation in that area. They admitted that since the Delta will be the hub of the state-wide system, the construction of any water structures there would create problems of various kinds. Principally these involve recreation, flood control, and seepage of undesirable water into Delta lands. It was also said that maintenance of good migratory

fishing would be difficult with any extensive structures. It was argued, however, that better water fishing would probably result. The department was requested to have plans for the protection and preservation of fishing, wild-life, and other recreation ready for review at the next meeting of the committee.

Some witnesses were so emphatic in their criticism of the deficiencies as to recreation in the water plan it was necessary to remind them that the principal topic of the hearing was the appropriation proposal. The committee was informed that it is impossible to measure the value of recreation entirely in dollars and cents. The recreational advantages of the Delta are just as important as other economic factors to the central valley, it was said.

Another speaker said that it makes good sense to build recreational facilities at the same time as water use structures, rather than to do the job later when higher land and construction costs might exist. Another objected to the proposed \$1.75 billion bond issue because it eliminates or modi-

fies too much the recreational features of the Delta. Another said the costs of recreational development should be charged against the project to determine costs to ultimate users of project services. Boatmen objected to any structures which would limit use of Delta waterways, to new locks, and to any direct charges for use of waterways.

This meeting certainly pointed up many of the problems which will concern us at our 1961 session.

**NOTICE OF THE FILING OF A
PETITION FOR THE INCLUSION
OF CERTAIN LANDS INTO THE
TEAPOT DOME WATER DISTRICT**

NOTICE IS HEREBY GIVEN that a
petition has been filed in the office of
the TEAPOT DOME WATER DISTRICT
requesting the inclusion of the fol-
lowing described real property, to-
wit:
That portion of the Southwest Quar-
ter of Section 18 and of the North-
west Quarter of Section 19, Township
22 South, Range 28 East, Mount Di-
ablo Base and Meridian, in the Coun-
ty of Tulare, State of California, as
per map thereof on file in the office
of the Bureau of Land Management
at the date of the issuance of the pat-
ent thereof, and more particularly de-
scribed as follows:

Beginning at a point on the West line
of the right-of-way of the Atchison,
Topeka and Santa Fe Railroad, 1709.3
feet South of the intersection of said
right-of-way with the North line of
the Southwest Quarter of said Section
18; thence South, along the West line
of said right-of-way, 1233.0 feet;
thence West on a line which inter-
sects the West line of said Section 19,
299.8 feet South of the Northwest cor-
ner of said Section 19, 1053.0 feet;
thence North, parallel with the West
line of said Sections 19 and 18, 1233.0
feet; thence East 1053.0 feet, more or
less, to the point of beginning, and
containing 29.81 acres, more or less,

into the TEAPOT DOME WATER DIS-
TRICT.

That the following named persons
have affixed their names to the said
Petition:

Gilbert I. Benson
Madge M. Benson
Leland S. Davidson
Fern M. Davidson

Scale Is Mightier

(Continued From Page 1)

of the Federal and State agencies
were the members of the San Joa-
quin Valley Hereford Association
who for the past two years have
had the herdsmen at Fresno State
college feed-out the bulls consign-
ed to their annual bull sale.

This year however, in order to
more nearly approximate the en-
vironment and feeding conditions
of the range, the breeders' group
turned the job over to Cyrille
Faure, Porterville area cattleman
and operator of the Faure-Cornell
Feed yards.

To conduct the trials, Faure se-
lected a site on Highway 65 be-
tween old Poplar Road and the
Tule river. He divided the acre-
age into three divisions to segre-
gate the stock according to their
age groups. These are: Junior
yearlings, summer yearlings and
yearlings of senior age.

In all, there are 40 head includ-
ed in the gain trials. They are
being fed a high roughage and low
concentrate ration. The former
being fed free choice and the lat-
ter once daily by the yard's regu-
lar feeders, "Bug" Hearne and
Isaac Gonzales. No artificial stim-
ulants or other fortified feeds are
used. Of these, Faure says "They
are crutches, and would defeat the
value of the tests, if used."

At the conclusion of the per-
formance test, the future herd
sires will be offered for sale in the
regular association sale to be held
this year on November 19 in the
livestock pavilion at Fresno state.
Their order of sale will conform
to their weight gains as recorded
during the six months feeding pro-
gram. That is to say, the animal
making the highest daily gains
will sell first and so on down the
line. Keith LaMoyné of the HB
Cattle Ranch estimates the high
gainer will put on pounds at the
rate of three or better per day.
The valley cattleman is a member
of the breeders' group holding the
office of vice president and asso-
ciate sales manager.

Admittedly, the tests are no
check on the animal's efficiency
of gain. But, this is understand-
able when feeding animals in a
group. However, tests performed
on feed consumption in conjunc-
tion with the testing of individ-
uals for rate of gain, show that the
best gainers are also the most effi-

Special Rodeo To Cap the Climax At Tulare County Fair

TULARE, Aug. 25 — A prelim-
inary meeting was held at Tulare
County Fairgrounds recently to set
plans for the special rodeo events
to be presented Sunday afternoon,
September 25, last day of Tulare
County Fair, opening September
20.

Present were Joe Pacheco, Joe
Isham, Glenn Lambert, Jim Lam-
bert and Fair secretary-manager,
A. L. Elliott. The group passed
the decision to limit entries to \$5
for each of the following events:
cutting horse class, calf roping,
team roping, wild cow milking
with a purse of \$50 for each
event plus entry money. No entry
fee will be required for the musi-
cal chairs and barrel race classes
which will carry a purse of \$25
each.

Any non-professional in the
county over 18 years of age is
eligible and entry blanks may be
obtained at the Fairgrounds office.

cient feed converters. They have
also shown that the top 10 head
in performance tests would also be
the top 10 head in the show ring,
although not necessarily in the
same order.

Whether performance testing
will eventually replace the saw-
dust circle as a means for proving
the "best of the breed" is a moot
question but, one thing is for cer-
tain, results to date are such that
no one in the beef business can af-
ford to ignore them.

From
**Daybell
Nursery**
By John

This is a good time to visit
your nursery because we haven't
too much to sell — no "back
to school" specials, no exotic
plants to trap you, and very
little ambition. This last is quite
important as we can't really
warm up our sales pitch while
we're thinking of peaceful moun-
tain streams and such.

In fact we just took a look at
past August advertising and
find we have urged you to go
fishing, to save your money so
we could get it later, or to sit
in the shade and plan what to
plant next month.

We're not really a fisherman
but if you take our advice and
go we would be glad to ex-
change fish stories with you. If
instead you stay home and actu-
ally save some money we will
give you one guaranteed to
grow camellia for any informa-
tion on how you did it. For
those that are planning what
to do next month we welcome
you with open arms.

For those doing next month's
work now we have fall bulbs of
Sparaxis, white Calla, Watsonia,
Spider Lily, black Calla, and
Freesia. The sparaxis are one
of the most colorful and satis-
factory bulbs you can plant.
Grow twelve inches tall and
bloom in every color — Only
sixty cents a dozen too. This is
also Sweet Pea Seed planting
time, and we have plants of
Calendula, Snaps, and Stocks
for the early birds. Also avail-
able for the late caterpillars.
These are on "E" Street some-
where north of Olive.

(Continued From Page 1)
told us so far" said Brown, "is that they (the tractors) will still be green in color and have black tires." "Other than that," he added, "we're as much in the dark as anyone else."

Brown was appointed Southeastern Tulare County Dealer for the old-line implement manufacturers about two years ago. He expects to have the new models on display early in September at his showrooms on West Olive in Porterville.

delete sea lions from the list of protected mammals and would establish a sea lion refuge, and S.B. 1262, that would permit the re-issuing of hunting licenses, under certain conditions, to persons whose license had been suspended because of their having negligently wounded or killed another person while hunting.

On September 14 another hearing will be held by the committee in the city council chambers at Newport Beach to consider SB 56 that would establish a commercial

fish commission empowered to establish rules and regulations relating to commercial fisheries.

Any person desiring to present testimony at these hearings should contact Senator Williams' office, Room 408, State Capitol, in Sacramento.

4-H All-Stars

(Continued from Page 1)
will make talks throughout the county on the 4-H program.

Candidates for the County All-Star honors are: Girls — Janet Gravlee, Palo Verde; Ann Haddock and Frances Haddock, Liberty; Phyllis Lewis, Earlimart, Helen Rae Moos, Union; Dorothy Nesbit, Terra Bella; Joyce Reid, Oak Grove; and Linda Wilkinson, Union. Boys — Eddie Bradley, Columbine; Less Guthrie, Ducor; Richard Haddock, Liberty; John Hendrixson, Citrus; Sparky Noble, Burton; John Saylor, Earlimart; and Louis Whitendale, East Lynne.

Current county All-Stars, that include Wesley Weisenberger, of the Success Valley club, are competing for state Diamond Star honors; four will be named from California.

SAN FRANCISCO will greet a unique ship of good will on Friday, August 26, when the SS HOPE, a floating medical center, docks there for supplies before leaving for the Far East. Three fireboats will greet the ship as she arrives, along with a fleet of six yachts headed by Commodore Dan London of the "Great Golden Fleet" of San Francisco. The first of the great fleet of hospital ships, which will be operated by American President Lines, will sail for Indonesia next month. San Francisco will be its home base of operations. Project HOPE, signifying Health Opportunity for People Everywhere, is a privately

sponsored program to share this country's modern medical knowledge and skills with newly developing countries.
